# We want you to tell us your story!

“Stories have power. They delight, enchant, touch, teach, recall, inspire, motivate, challenge. They help us understand. They imprint a picture on our minds. Want to make a point or raise an issue? Tell a story.”

-Janet Litherland (author)

## MUSC has interesting success with social connectiveness

Thu, 2018-11-15 12:49 — frushton

Great success at MUSC with social connectiveness question with statistical significance using run chart rules. Also with video exposure in the 3 to 6 year olds. Having difficulty with fluoride varnish stocking.

## Impressive gains in SC with under 5 hospitalizations for asthma and HPV vaccination rates

Thu, 2018-11-15 10:40 — frushton

At a recent pediatric advisory committee meeting at DHEC, we were told there has been a 50 percent drop in under 5 hospitalizations for asthma over the past 5 years. Plus, HPV vaccinations have increased between 2016 and 2017 in SC the 3rd fastest in the country, kudos to all who have worked on these issues both inside and outside QTIP. You are making a difference!

## Coastal Impressive

Thu, 2018-11-15 10:37 — frushton

Great results on teen measures. Using Athena recall to get kids back in for their HPV. Foster care issues are a frustration for Coastal. QTIP may consider a focus on foster care as part of our mainstream efforts. New CEO at Coastal initiating KPIs... Key performance indicators... WRH heavy emphasis practice wide on quality. Coastal keeps a quality payment dashboard: Keeps track all the incentives that comes in for QI activity. Meaningful use money, PCMH, BCBS, MCO incentive dollars, shared savings

# QTIP Blog

To start a new blog post, navigate to the menu on the left sidebar and select Create content > Blog entry.

The screenshot displays the QTIP (Quality through Technology and Innovation in Pediatrics) interface. At the top, the South Carolina Department of Health & Human Services logo is visible alongside the QTIP logo. The main content area is titled 'Create content' and lists several options: Blog entry, Book page, Forum topic, News, Page, Poll, and Story. Each option includes a brief description. On the left sidebar, under the user name 'Liz Parham', there is a 'Create content' menu item with a red arrow pointing to it. This menu is expanded to show sub-options: Create content, Blog entry, Book page, Forum topic, News, Page, Poll, Story, and Webform. Below this are 'Recent posts', 'Feed aggregator', and 'Log out'.

Psychiatric Consultation Still Available [View](#) [Edit](#) [Outline](#) [Track](#) [Devel](#)

Tue, 2015-07-14 08:27 — Kristine Hobbs

Hello to All,

Just a reminder that Dr. Khetpal, Child Psychiatrist, is still available to our QTIP practices (See below for details). She asked that I share this article with you: "How to write a suicide risk assessment that's clinically sound and legally defensible."

[http://www.currentpsychiatry.com/index.php?id=22661&tx\\_ttnews\[tt\\_news\]=381857&cHash=9f714643ea386b3e1d060c77b6464f27](http://www.currentpsychiatry.com/index.php?id=22661&tx_ttnews[tt_news]=381857&cHash=9f714643ea386b3e1d060c77b6464f27)

*Dr. Khetpal cannot provide any direct services, as that is not within the scope of our grant. However, she can consult on vignettes you may want to field with a child psychiatrist to determine the next step of treatment. To contact Dr. Khetpal directly, you can text her directly at 803-622-8742. She said you can leave a simple text with no clinical information such as "QTIP physician would like to consult, please contact me at..." would be sufficient and she will call you back at her earliest convenience. She can also be reached via email at [anitakhetpal@yahoo.com](mailto:anitakhetpal@yahoo.com)...but has said texting her will be faster.*

# QTIP Blog: QI Meeting Minutes Reporting Tool

<https://msp.scdhhs.gov/chipraqtip/content/qi-meeting-minutes>

The screenshot shows a web application interface for reporting QI Meeting Minutes. At the top, there is a navigation bar with a "Home" link and a logo for "Quality through technology and Innovation in Pediatrics". Below the navigation bar, the title "QI Meeting Minutes" is displayed, followed by a "View" button and several menu items: "Edit", "Webform", "Outline", "Results", "Track", and "Devel". A green message box states: "You have already submitted this form. View your previous submissions." Below this, the submission date and time are shown: "Mon, 2011-06-06 10:30 — Liz Parham". The form fields include: "Name of Reporter:" with a text input field; "Name of Practice:" with a dropdown menu currently showing "- Select -"; "Date of QI Meeting:" with three dropdown menus for "Year", "Month", and "Day"; "Participants:" with a large text area; and "What was discussed?:" with another large text area. A small note at the bottom of the participants field reads: "CKEditor: the ID for excluding or including this element is `garland:webform@node/67.edit-submitted-participants`."

Healthy Connections MEDICAID QTIP

APPLY LEARNING COLLABORATIVES MENTAL HEALTH PCMH PRACTICES QI STAFF

QUALITY THROUGH TECHNOLOGY & INNOVATION IN PEDIATRICS

WHAT IS QTIP?

The Quality through Technology and Innovation in Pediatrics (QTIP) program works to improve health care for children in South Carolina by working on quality measures and incorporating mental health into a medical home. Started in 2010, this program brings practices together to collaborate on specific measures and foster quality improvement projects at each practice site.

The South Carolina grant has four key goals:

1. To work on children's quality care measures.
2. To develop a physician-led, peer-to-peer quality improvement network.
3. To address mental health challenges of children in our state; and
4. To provide practices with the skills to become a patient-centered medical home (PCMH)

QTIP represents a unique opportunity for South Carolina pediatricians to help develop quality improvement tools that will lead to better health outcomes for current and future generations of patients.

WHY SHOULD MY PRACTICE PARTICIPATE IN QTIP?

The QTIP program offers numerous benefits, including:

- Opportunities to participate in learning collaborative sessions, technical assistance visits and quality improvement workshops
- Development of valuable relationships with other practices to improve children's health in SC
- American Board of Pediatrics (ABP) Maintenance of Certification (MOC) Part IV credit for members of SCAAP who participate in select quality improvement efforts
- Integration of mental health services into your office
